---

**Please describe the current health issues experienced and their urgency below. Include current medications if known.**

*If the person is experiencing a medical emergency, please call 000 or present to any public hospital.*

---

### Service description

- Clinic Sihat provides access to a range of health services for people seeking asylum, newly arrived refugees, vulnerable temporary migrants and undocumented migrants in Shepparton who are experiencing financial hardship. These services include in-person nurse-led primary healthcare and assessments, immunisations and GP consultations.
- Clinic Sihat works in partnership with other asylum seeker agencies and where able, assists with referrals to community health and specialist services such as dental, optometry, allied health, infectious diseases and paediatrics.

### Priority of access

People seeking asylum, refugees, and undocumented migrants are eligible for health care at Clinic Sihat, and priority is given to people who do not have a Medicare card.

### Cost

All services provided at Clinic Sihat will be free to all clients.

- Medicare ineligible clients will receive free service
- Medicare eligible clients will be bulk-billed (clients will need to present their Medicare card)

### Referral process

- Referrers may call (03) 5823 3200 to discuss referrals on clinic days
- Clinic Sihat staff will inform referrer of the acceptance of the referral and liaise with clients about their appointments
- For mental health referrals, please use the mental health referral form (ask us or download from our website)

### Additional referral documentation

Please attach a copy of any relevant medical documentation such as detention health records, arrival health screening, immunisation records, discharge summaries or other health records.
